More than 5,000 students served

► 4,045 students served through live online classes

To keep staff and students safe during the pandemic, we switched to conducting our live sessions over Zoom. While in-person programs will always be our preference, by virtualizing our work we were able to reach more than 4,000 students through live online sessions.

► Over 1,000 students served through recorded content

Camp Cooper staff built learning modules for Pre K - 5th graders. We call it Camp Cooper Online and it reached over 1,000 students in 2020-2021.

Our biggest one-day live educational event

► Our staff brings a desert story to life for 1,300 students

In partnership with TUSD, as part of National Read Across America Day, Camp Cooper staff and interns performed a dramatic reading of *The Three Little Javelinas* by Susan Lowell. Our staff brought this Sonoran Desert classic to life, reaching more than 90 classrooms and over 1,300 students, a record single event reach for a live online Cooper experience.

Teacher development continues to grow

► 10% more teachers inspired by hands-on science instruction

Our teacher development courses went online this year, but we served 10% more teachers. Workshops were created with Partners for Equitable Science Instruction thanks to funding by Davis Memorial Scholarship Fund.
